Report details

Period from	Period to	Integrity	Report type	Template
2018-04-01 00:10:00	2018-05-01 00:00:00	100	Standard	Standard Production Report (VMP)

Park units

WTG01, WTG02, WTG03, WTG04, WTG05 (99.9%), WTG06

Description

Legend

Total Hours

Total hours

Active Prod. Total kWh

Total active production in kWh

Active Consumption kWh

Active Consumption in kWh

Active Prod. Generator 1 kWh

Active Production for Generator 1 in kWh

Active Prod. Generator 2 kWh

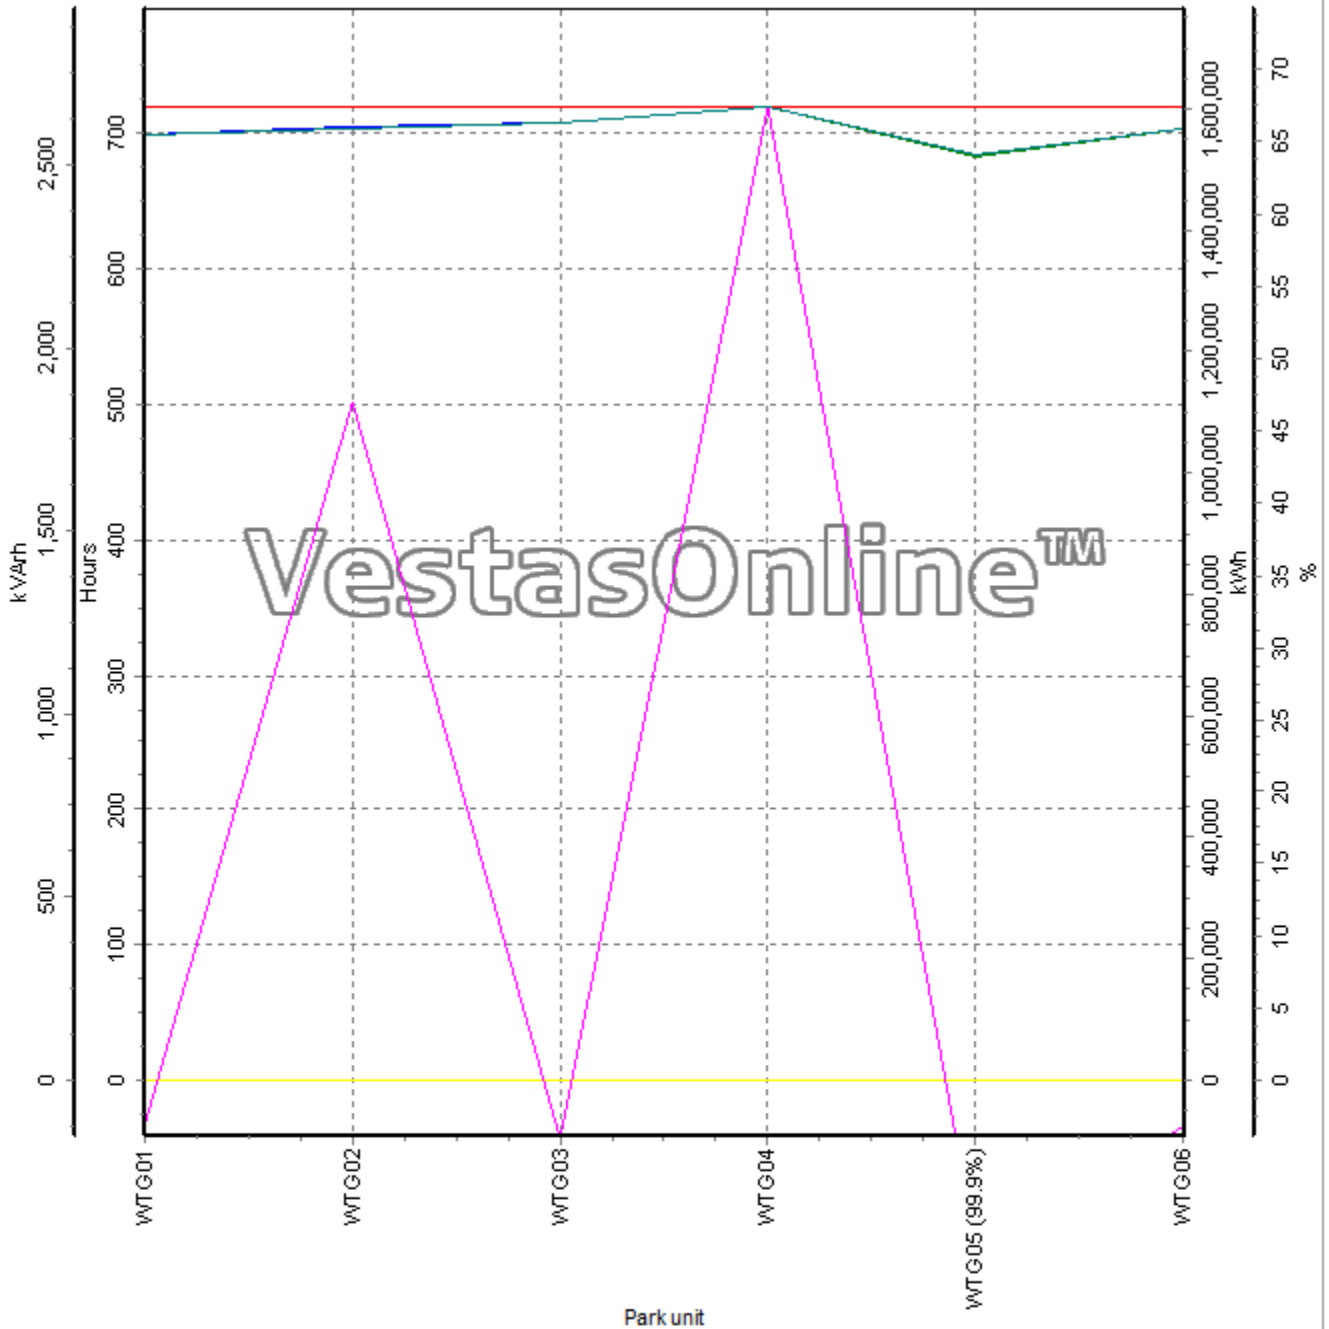

Active Production for Generator 2 in kWh

Reactive Prod. Total kVarh

Total reactive production in kVarh

Capacity Factor %

Capacity factor for the report period as the actual energy produced in the report period divided by the nominal energy production for the report period and expressed in %. The nominal energy production is calculated as the rated power of the turbine in kW multiplied by the duration of the report period in hours. Turbine downtime periods are not excluded.
